This handbook was created to help you understand what we do, answer any questions you might have, and make the best use of the services that are available to you. Please be sure to read this handbook so that you fully understand the services and rights available to you. We encourage you to keep it for future reference. If you have any questions or comments, please contact Lakeshore Regional Entity Customer Services at (800) 897-3301.

January 16, 2018

WELCOME TO LAKESHORE REGIONAL ENTITY

Lakeshore Regional Entity (LRE) serves as the Prepaid Inpatient Health Plan (PIHP) under contract with the Michigan Department of Health and Human Services to manage all Medicaid specialty services provided by the following counties: Allegan, Kent, Lake, Mason, Muskegon, Oceana, and Ottawa.

The LRE contracts with its partner Community Mental Health Services Programs (CMHSPs) and other local service providers to provide behavioral health services to adults with severe mental illness and children with emotional disturbance, substance use disorder services, and services and supports for individuals with a developmental disability. Non-Medicaid specialty services using state general funds, federal block grants, and other funding sources may also be provided.

VISION

The vision of the Lakeshore Regional Entity is to promote the efficiency and effectiveness of the Members by jointly serving as the PIHP for Medicaid Specialty Behavioral Health Services for the region. Behavioral Health Services include services for persons with developmental disabilities, adults with mental illness, children with emotional disturbance and persons with substance use disorders. The Lakeshore Regional Entity seeks to build upon and maximize the unique strengths of the individual Member Boards serving Allegan, Kent, Lake, Mason, Muskegon, Oceana and Ottawa Counties, while establishing a regional organization and identity that supports an essential standard for services. The Lakeshore Regional Entity will promote performance that supports and advocates for and is informed by the needs of the individuals the Entity serves across the region.

LRE CONTACT INFORMATION

Jeff Brown Chief Executive Officer 5000 Hakes Drive, Suite 500 Norton Shores, MI 49441 (231) 769-2050	Gregory Green, M.D. Medical Director 376 E Apple Ave Muskegon, MI 49442 (231) 724-3699
---	--

CUSTOMER SERVICES

Lakeshore Regional Entity (LRE) has a Customer Services Department ready to provide assistance to you. You can contact Customer Services Monday through Friday during business hours, with the exception of holidays, at 800-897-3301. If you call outside of business hours and wish to leave a message, please include your name, phone number and a brief description of the reason for your call. Customer Services will return your call within one business day.

These are just some of the ways Customer Services can help you:

- Welcome and orient you to services, benefits available and the provider network
- Provide further assistance with understanding your available benefits or any problems relating to benefits, along with any charges, co-pays or fees
- Provide information about how to access behavioral health, substance abuse, primary health, and other community services
- Respond to any complaints or problems with the services you are receiving and provide assistance with filing a grievance or an appeal
- Provide information about LRE operations, including the organizational chart, annual reports, board member lists, board meeting schedules, and board meeting minutes
- Provide information about Michigan Department of Health and Human Services, access standards, practice guidelines, and technical advisories and requirements

Customer Satisfaction

We want to make sure you are satisfied with your services and supports. From time to time we may ask you to participate in satisfaction surveys, interviews and focus groups. The answers you provide will tell us how satisfied you are with our services and the staff who provide them. Responses can be kept anonymous and you have the right to choose not to participate or answer certain questions. Your services or supports will not change if you choose not to participate.

Customer Involvement

Your perspective is critical as we work to continually add value to your experience. There are a number of opportunities for you to participate in activities that assist us to improve services. If you are interested in learning more about participating in these opportunities, or if you would like to provide us feedback on the services and supports you receive, please contact Customer Services at 800-897-3301.

LANGUAGE ASSISTANCE AND ACCOMMODATIONS

Language Assistance

If you are a person who is deaf or hard of hearing, you can utilize the Michigan Relay Center (MRC) to reach your PIHP, CMHSP or service provider. Please call 7-1-1 and ask MRC to connect you to the number you are trying to reach.

If you prefer to use a TTY, you may contact LRE at (231) 740-0098, or you may contact your local CMHSP at the following TTY/TDD phone number:

CMHSP	TTY/TDD Phone Number
Allegan County CMH	(269) 686-5313
CMH of Ottawa County	(616) 494-5508
HealthWest, Muskegon's Behavioral WellnessConnection	(231) 720-3280
Network180	(800) 649-3777
West Michigan CMH	(800) 790-8326

If you need a sign language interpreter, contact your local CMHSP so that one will be made available. Sign language interpreters are available at no cost to you.

If you are a person who does not speak English as your primary language and/or who has a limited ability to read, speak or understand English, contact your local CMHSP as soon as possible so arrangements can be made for an interpreter. Language interpreters are available at no cost to you.

Accessibility and Accommodations

In accordance with federal and state laws, all buildings and programs of the LRE are required to be physically accessible to individuals with all qualifying disabilities. Any individual who receives emotional, visual or mobility support from a qualified/trained and identified service animal such as a dog will be given access, along with the service animal, to all buildings and programs of the LRE. If you need more information or if you have questions about accessibility or service/support animals, contact your local CMHSP or Customer Services at 800-897-3301.

If you need to request an accommodation on behalf of yourself or a family member or friend, you can contact your local CMHSP or Customer Services at 800-897-3301. You will be told how to request an accommodation (this can be done over the phone, in person, and/or in writing) and you will be told who at the agency is responsible for handling accommodation requests.

If you need to request written information be made available to you in an alternative format, including enlarged font size, audio version or in an alternate language, contact Customer Services or your local CMHSP so arrangements for translation or accommodations can be made. We will provide the information to you as soon as possible, but no later than 30 days from the date of your request. This information will be made available to you at no cost.

SAFETY GUIDELINES/RULES

Building Rules

- ✓ Weapons of any kind are prohibited on the grounds, in buildings or in any vehicles.
- ✓ Keep drugs, abusive language, and damaging behavior out of the treatment setting. Appropriate actions will be taken to ensure your safety and the safety of all consumers.
- ✓ You are responsible for your personal belongings. Please keep them with you at all times.
- ✓ Your personal medications are prescribed for you only. Please keep them with you at all times when you are in the building or riding in one of our vehicles. Do not share any of your medications with anyone else.

- ✓ There is no smoking in any CMHSP building or vehicle.
- ✓ For reasons of privacy and confidentiality, we appreciate your patience as you stay in the waiting areas until staff come to greet you.

Program Specific Rules

Some programs may place restrictions on persons served. You will receive information about events, behaviors or attitudes that may lead to loss of privileges and the means by which you may regain rights or privileges that have been restricted. Talk to the staff providing your services for more information.

If you are ever terminated from services as a result of a suspected or substantiated violation of program rules, you may be able to return to service after a certain period of time or after you have demonstrated you will no longer violate the rule. Each program may have different criteria for reinstatement and many have agreements that you will be asked to sign when you start services or after an incident occurs. The staff working with you can answer questions about program rules.

EMERGENCY AND AFTER-HOURS ACCESS TO SERVICES

A “behavioral health emergency” is:

- when a person is experiencing symptoms and behaviors that can reasonably be expected in the near future to lead him/her to harm self or another; and/or
- because of his/her inability to meet his/her basic needs she/he is at risk of harm; and/or
- the person’s judgment is so impaired that he/she is unable to understand the need for treatment and that his/her condition is expected to result in harm to him/herself or another individual in the near future.

You have the right to receive emergency services at any time, 24 hours a day, 7 days a week, without prior authorization for payment of care. If you have a behavioral health emergency, you should seek help right away. At any time during the day or night, you can call the emergency number for your local CMHSP office:

CMHSP	Counties Served	Emergency Phone Number
Allegan County CMH	Allegan	(269) 673-0202 or (888) 354-0596
CMH of Ottawa County	Ottawa	(616) 842-4357 Grand Haven (616) 396-4357 Holland (866) 512-4357 All other areas
HealthWest, Muskegon’s Behavioral Wellness Connection	Muskegon	(231) 722-4357 (877) 724-4440

Sturgis Hospital 916 Myrtle St Sturgis, MI 49091 (269) 651-7824		

In a "medical emergency," if you have Medicaid you will not need to pay for emergency services, or for tests or treatment needed to diagnose or stabilize the emergency medical condition. You are also not responsible for payment of ambulance services if other means of transportation would endanger your health. If you do not have Medicaid you may be responsible for costs associated with the treatment you receive. You may go to any hospital emergency room or other setting for emergency services.

Please note: If you utilize a hospital emergency room, there may be health care services provided to you as part of your hospital treatment for which you may receive a bill and may be responsible for, depending on your insurance status. These services may not be part of the PIHP emergency services you receive. Customer Services can answer questions about such bills.

Post Stabilization Services

After you receive emergency behavioral health care and your condition is under control, you may receive behavioral health services to make sure your condition continues to stabilize and improve. Examples of post-stabilization services are crisis residential, case management, outpatient therapy, and/or medication reviews. Prior to the end of your emergency-level care, your local CMHSP will help you to coordinate your post-stabilization services.

Out of County Emergency Mental Health Care

If you have Medicaid, carry your card with you at all times. You are covered for emergency behavioral health services anywhere within the State of Michigan. If you have a behavioral health emergency while you are outside of the county where you receive services, you should contact the CMHSP where you are at during the time of the emergency, or go the nearest hospital emergency room. The CMHSP where you are during the emergency will contact your local CMHSP to arrange for your care.

SERVICE ELIGIBILITY

Michigan has a managed care delivery system for behavioral health and substance use disorder services. The Michigan Department of Health and Human Services (MDHHS) sets rules and regulations we must follow. This includes the types of services that are provided and the criteria used to determine if someone qualifies to receive services.

Services are available to adults and children in our affiliation area who have a serious mental illness, developmental disability, serious emotional disturbance, and/or substance use disorder; and, who have Medicaid, or are uninsured; and who are eligible for services as defined by the Michigan Mental Health Code.

Flint Water Crisis: Who is Eligible for this Coverage?

Anyone under the age of 21 or any pregnant woman who was served by water from the Flint water system since April 2004 – and whose family incomes are 400% or less of the federal poverty level. Children born to a woman served by the Flint water system during this period also are part of this eligible group. 400% of the federal poverty level is \$47,520 for one person, or \$97,200 for a family of four. Others in this group with incomes greater than 400% of the federal poverty can apply for Medicaid health coverage through a “buy-in” option.

Medical Necessity

Services authorized for treatment of a behavioral health and/or substance use disorder concern must be medically necessary. You will participate in a screening of your needs to identify the type of services you might be eligible to receive. This means the services to be provided are needed in order to ensure there is appropriate screening, referral, and treatment of mental illness, substance abuse disorder, serious emotional disturbance or developmental disability.

Medical necessity also means that the amount (how much of a service you get), scope (who provides the service and how), and duration (how long the service will last) of your services are enough to meet your needs.

Medicaid recipients are guaranteed to receive services that are medically necessary. For people who have no insurance, the services that may be provided depends upon the amount of general fund dollars the agency has available. The LRE must provide services to as many people as possible within the financial resources that are available. Sometimes people will be placed on a waiting list if there is not enough money to provide services and they do not qualify for Medicaid.

ACCESSING

For individuals seeking supports and services for mental illness, developmental disability, serious emotional disturbance, and/or substance abuse, it all starts with a phone call to your local CMHSP. All calls are private and confidential. Trained and licensed clinicians will talk with you to determine your needs and eligibility.

Each service offered through the CMHSP has criteria established by MDHHS. Staff may suggest one or more of the services based on your needs. If you do not qualify for services, our staff will assist you to find other agencies in the community who might be able to help.

To access behavioral health or substance abuse services, please contact your local CMHSP using the contact information listed on the next several pages of this handbook.

OUR MISSION

Inspiring hope, improving mental health, supporting self-determined lives, and encouraging recovery.

OUR VISION

- Promoting community inclusion, combating stigma, and emphasizing prevention.
- Welcoming, accessible, and responsive services in support of the cultures, traditions, and values of all members of our community.
- Creating comprehensive, innovative, and effective services in partnership with provider agencies and the people we serve.
- Being an organization that is valued as a community resource, providing collaborative leadership, and providing compassionate and effective services.

WE VALUE

- The worth and dignity of all persons.
- Diversity and cultural competence – respect and appreciation for the ideas, customs, ethnicity, and traditions of all members of the community.
- Innovative and responsive services that encourage people to reach their potential.
- Upholding the public trust with integrity and accountability.

SERVICE AUTHORIZATION

Services you request must be authorized or approved by the LRE or its designee. That agency may approve all, some or none of your requests. You will receive notice of a decision within 14 calendar days after you have requested the service during person-centered planning, or within 72 hours if the request requires a quick decision.

Any decision that denies a service you request or denies the amount, scope or duration of the service that you request will be made by a health care professional who has appropriate clinical expertise in treating your condition. Authorizations are made according to medical necessity. If you do not agree with a decision that denies, reduces, suspends or terminates a service, you may file an appeal (see the Grievance and Appeals section for additional information about filing an appeal).

If you have Medicaid:

- You are eligible for a specific set of services based on medical necessity.
- The list of Medicaid services available is explained in the “Medicaid Specialty Supports and Services Medicaid Beneficiaries” section of this handbook.
- You cannot be put on a waiting list for a service considered “medically necessary” unless you are in agreement.

If you do not have Medicaid (General Fund):

- The list of services is not as large as it is for those who have Medicaid. The list of services available for those who do not have Medicaid is explained in the “Services for Individuals who do not have Medicaid” section of this handbook.
- For individuals who do not have Medicaid, there is a Wait List for services when the agency does not have enough General Fund dollars.

Priority for Services

Some individuals receive priority for services. This means that the LRE must meet their needs first and after that the LRE can fund services for other people who meet criteria for treatment.

You will get priority for behavioral health services:

- If you have Medicaid.
- If you are in an urgent or emergency need.
- If you have no insurance and you have the most severe forms of serious mental illness, serious emotional disturbance or developmental disability.

You will get priority for substance use disorder services:

- If you have Medicaid.
- If you are pregnant and you inject drugs.
- If you are pregnant and you have a substance use disorder.
- If you inject drugs.
- If you are a parent and your child was removed from the home, or may soon be removed from the home, under the Michigan Child Protection Laws.

PAYMENT FOR SERVICES

If you are enrolled in Medicaid and meet the criteria for the specialty behavioral health and substance abuse services, the total cost of your authorized behavioral health or substance abuse treatment will be covered. No fees will be charged to you. If you are a Medicaid beneficiary with a deductible (“spend-down”), as determined by MDHHS, you may be responsible for the cost of a portion of your services. If you have a “spend-down” amount that must be met before services you receive can be covered by Medicaid, we can discuss this with you and answer any questions you may have.

Make sure that you inform your CMHSP and/or service provider of all the insurances you are covered by, as well as any changes to your insurance. The law states if you are covered by another insurance plan that insurance will be billed before any state funds, including Medicaid, can be used to cover the services provided to you. It is important your insurance information is kept current at all times. If you fail to provide insurance information you may be at risk of being charged for services.

If you do not have insurance, payment is based on what you can afford. When you begin treatment, we will work with you to determine what your costs will be. If you believe your fee is beyond your means, we will offer to review your personal and family budget to reassess the fee. Please read your payment agreement for additional details related to your ability to pay. Please notify us of any changes in your status, income or insurance. If you do not provide the information needed to determine your ability to pay, you may be at risk for being charged the full amount for services.

Your Rights and Responsibilities

You have the right to know the costs of your services. You have the right to request a review of your fee when your income situation changes. You also have the right to appeal your assessed fee.

You should bring your Medicaid or insurance information to each visit. You will be asked to provide financial information and document your income. You are required to make payments at the time of your service, unless you have made other arrangements. You must attend all scheduled appointments, or call to cancel at least 24 hours in advance.

SERVICE ARRAY

MEDICAID SPECIALTY SUPPORTS AND SERVICES FOR MEDICAID BENEFICIARIES

Note: If you are a Medicaid beneficiary and have a serious mental illness, serious emotional disturbance, developmental disability and/or substance use disorder, you may be eligible for some of the following Medicaid Specialty Supports and Services.

Before services can be started, you will take part in an assessment to find out if you are eligible for services. This assessment will also identify the services that can best meet your

needs. You need to know that not all people who come to us are eligible for services, and not all services are available to everyone we serve. If you are not eligible for a service, your CMHSP will not pay for it. Medicaid will not pay for services that are otherwise available to you from other resources in the community. You will be transitioned from your local CMHSP services when you no longer meet eligibility criteria or when you have met your desired changes.

During the person-centered planning process, you will be helped to figure out the medically necessary services that you need and the sufficient amount, scope, and duration required to achieve the purpose of those services. You will also be able to choose who provides your supports and services. You will receive an individual plan of service that provides all of this information.

By way of your Medicaid Medical Assistance application form with the Michigan Department of Health and Human Services, CMHSPs are required, by law, to share necessary information between the Medicaid Health Plans, programs and providers that you (or your child or ward) participate in as necessary to maintain, manage, and coordinate quality health care and benefits. Any necessary referral or treatment for alcohol or other drug abuse will comply with the federal confidentiality law 42 CFR Part 2.

In addition to meeting medically necessary criteria, services listed below marked with an asterisk * require a doctor's prescription.

Note: The Michigan Medicaid Provider Manual contains complete definitions of the following services, as well as eligibility criteria and provider qualifications. The manual may be accessed at <http://www.mdch.state.mi.us/dch-medicaid/manuals/MedicaidProviderManual.pdf>. Customer Services staff can help you access the manual and/or specific information from it.

Assertive Community Treatment (ACT) provides basic services and supports essential for people with serious mental illness to maintain independence in the community. An ACT team will provide behavioral health therapy and help with medications. The team may also help access community resources and supports needed to maintain wellness and participate in social, educational, and vocational activities. ACT may be provided daily for individuals who participate.

Assessment includes a comprehensive psychiatric evaluation, psychological testing, substance abuse screening or other assessments conducted to determine a person's level of functioning and behavioral health treatment needs. Physical health assessments are not part of CMH services.

***Assistive Technology** includes adaptive devices and supplies that are not covered under the Medicaid Health Plan or by other community resources. These devices help individuals take better care of themselves, or to better interact in the places where they live, work, and play.

Autism Services provides for coverage of Behavioral Health Treatment (BHT) services, including Applied Behavioral Analysis (ABA), for eligible children under 21 years of age with Autism Spectrum Disorders (ASD) within the region within the guidelines set forth in the EPSDT Behavioral Health Treatment Benefit.

All children, including children with ASD, must receive EPSDT services that are designed to assure that children receive early detection and preventive care, in addition to medically necessary treatment services to correct or ameliorate any physical or behavioral conditions, so that health problems are averted or diagnosed and treated as early as possible.

BHT services prevent the progression of ASD, prolong life, and promote the physical and mental health and efficiency of the child. Medical necessity and recommendation for BHT service is determined by a physician, or other licensed practitioner working within their scope of practice under state law. Direct patient care services that treat or address ASD under the state plan are available to children under 21 years of age as required by the EPSDT benefit.

Behavior Treatment Review: If a person's illness or disability involves behaviors that they or others who work with them want to change, their individual plan of service may include a plan that talks about the behavior. This plan is often called a "behavior treatment plan." The behavior treatment plan is developed during person-centered planning and then is approved and reviewed regularly by a team of specialists to make sure that it is effective and dignified, and continues to meet the person's needs.

Behavioral Treatment Services/Applied Behavior Analysis: are services for children under 21 years of age with Autism Spectrum Disorders (ASD).

Clubhouse Programs are programs where members (consumers) and staff work side by side to operate the clubhouse and to encourage participation in the greater community. Clubhouse programs focus on fostering recovery, competency, and social supports, as well as vocational skills and opportunities.

Community Inpatient Services are hospital services used to stabilize a behavioral health condition in the event of a significant change in symptoms, or in a behavioral health emergency. Community hospital services are provided in licensed psychiatric hospitals and in licensed psychiatric units of general hospitals.

Community Living Supports (CLS) are activities provided by paid staff who help adults with either serious mental illness or developmental disabilities live independently and participate actively in the community. Community Living Supports may also help families who have children with special needs (such as developmental disabilities or serious emotional disturbance).

Crisis Interventions are unscheduled individual or group services aimed at reducing or eliminating the impact of unexpected events on behavioral health and well-being.

Crisis Residential Services are short-term alternatives to inpatient hospitalization provided in a licensed residential setting.

***Enhanced Pharmacy** includes doctor-ordered nonprescription or over-the-counter items (such as vitamins or cough syrup) necessary to manage a health condition(s) when a person's Medicaid Health Plan does not cover these items.

***Environmental Modifications** are physical changes to a person's home, car or work environment that are of direct medical or remedial benefit to the person. Modifications ensure

access, protect health and safety and/or enable greater independence for a person with physical disabilities. Note that all other sources of funding must be explored first, before using Medicaid funds for environmental modifications.

Family Support and Training provides family-focused assistance to family members relating to and caring for a relative with serious mental illness, serious emotional disturbance or developmental disabilities. “Family Skills Training” is education and training for families who live with and/or care for a family member who is eligible for the Children’s Waiver Program.

Fiscal Intermediary Services help individuals manage their service and supports budget and pay providers if they are using a “self-determination” approach.

Flint 1115 Demonstration Waiver expands coverage to children up to age 21 years and to pregnant women with incomes up to and including 400% of the federal poverty level (FPL) who were served by the Flint water system from April 2014 through a state-specified date. This demonstration is approved in accordance with Section 1115(a) of the Social Security Act, and is effective as of March 3, 2016 (the date of the signed approval) through February 28, 2021. Medicaid-eligible children and pregnant women who were served by the Flint water system during the specified period will be eligible for all services covered under the state plan. All such persons will have access to Targeted Case Management services under a fee-for-service contract between MDHHS and Genesee Health Systems (GHS). The fee-for-service contract shall provide the targeted case management services in accordance with the requirements outlined in the Special Terms and Conditions for the Flint Section 1115 Demonstration, the Michigan Medicaid State Plan and Medicaid Policy.

Health Services include assessment, treatment, and professional monitoring of health conditions that are related to or impacted by a person’s behavioral health condition. A person’s primary doctor will treat any other health conditions they may have.

Healthy Michigan Plan is an 1115 Demonstration project that provides health care benefits to individuals who are: aged 19-64 years; have income at or below 133% of the federal poverty level under the Modified Adjusted Gross Income methodology; do not qualify or are not enrolled in Medicare or Medicaid; are not pregnant at the time of application; and are residents of the State of Michigan.

Home-Based Services for Children and Families are provided in the family home or in another community setting. Services are designed individually for each family, and can include such things as behavioral health therapy, crisis intervention, service coordination or other supports to the family.

Housing Assistance is assistance with short-term, transitional or one-time-only expenses in an individual’s own home that his or her resources and other community resources could not cover.

Intensive Crisis Stabilization is another short-term alternative to inpatient hospitalization. Intensive crisis stabilization services are structured treatment and support activities provided by a behavioral health crisis team in the person’s home or in another community setting.

Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) provides 24-hour intensive supervision, health and rehabilitative services and basic needs to persons with developmental disabilities.

Medication Administration is when a doctor, nurse or other licensed medical provider gives an injection, or an oral medication or topical medication.

Medication Review is the evaluation and monitoring of medications used to treat a person's behavioral health condition, their effects, and the need for continuing or changing their medications.

Mental Health Therapy and Counseling for Adults, Children, and Families includes therapy or counseling designed to help improve functioning and relationships with other people. This is also called Outpatient Therapy.

Nursing Home Mental Health Assessment and Monitoring includes a review of a nursing home resident's need for and response to behavioral health treatment, along with consultations with nursing home staff.

***Occupational Therapy** includes the evaluation by an occupational therapist of an individual's ability to do things in order to take care of themselves every day, and treatments to help increase these abilities.

Partial Hospital Services include psychiatric, psychological, social, occupational, nursing, music therapy, and therapeutic recreational services in a hospital setting, under a doctor's supervision. Partial hospital services are provided during the day – participants go home at night.

Peer-Delivered and Peer Specialist Services: Peer-Delivered services such as drop-in centers are entirely run by consumers of behavioral health services. They offer help with food, clothing, socialization, housing, and support to begin or maintain behavioral health treatment. Peer Specialist services are activities designed to help persons with serious mental illness in their individual recovery journey and are provided by individuals who are in recovery from serious mental illness. There may also be Peer Specialist Services available for individuals who have a developmental disability, substance use disorder, and/or families of children with serious emotional disturbance.

Personal Care in Specialized Residential Settings assists adults with mental illness or developmental disabilities with activities of daily living, self-care, and basic needs, while they are living in a specialized residential setting in the community.

***Physical Therapy** includes the evaluation by a physical therapist of a person's physical abilities (such as the ways they move, use their arms or hands or hold their body), and treatments to help improve their physical abilities.

Prevention Service Models (such as Infant Mental Health, School Success, etc.) use both individual and group interventions designed to reduce the likelihood that individuals will need treatment from the public behavioral health system.

Respite Care Services provide short-term relief to the unpaid primary caregivers of people eligible for specialty services. Respite provides temporary alternative care, either in the family home or in another community setting chosen by the family.

Skill-Building Assistance includes supports, services, and training to help a person participate actively at school, work, volunteer or community settings, or to learn social skills they may need to support themselves or to get around in the community.

***Speech and Language Therapy** includes the evaluation by a speech therapist of a person's ability to use and understand language and communicate with others or to manage swallowing or related conditions, and treatments to help enhance speech, communication or swallowing.

Supports Coordination or Targeted Case Management: A supports coordinator or case manager is a staff person who helps write an individual plan of service and makes sure the services are delivered. His or her role is to listen to a person's goals, and to help find the services and providers inside and outside the local community mental health services program that will help achieve the goals. A supports coordinator or case manager may also connect a person to resources in the community for employment, community living, education, public benefits, and recreational activities.

Supported/Integrated Employment Services provide initial and ongoing supports, services, and training, usually provided at the job site, to help adults who are eligible for behavioral health services find and keep paid employment in the community.

Transportation may be provided to and from a person's home in order for them to take part in a non-medical Medicaid covered service.

Treatment Planning assists the person and those of his or her choosing in the development and periodic review of the individual plan of service.

Wraparound Services for children and adolescents with serious emotional disturbance and their families that include treatment and supports necessary to maintain the child in the family home.

SERVICES FOR HABILITATION SUPPORTS WAIVER (HSW) AND CHILDREN'S WAIVER PARTICIPANTS

Some Medicaid beneficiaries are eligible for special services that help them avoid having to go to an institution for individuals with developmental disabilities or a nursing home. These special services are called the Habilitation Supports Waiver and the Children's Waiver. In order to receive these services, individuals with a developmental disability need to be enrolled in either of these waivers. The availability of these waivers is very limited. Individuals enrolled in the waivers have access to the services listed above, as well as those listed here:

Goods and Services (for HSW enrollees) is a non-staff service that replaces the assistance that staff would be hired to provide. This service, used in conjunction with a self-determination arrangement, provides assistance to increase independence, facilitate productivity or promote community inclusion.

Non-Family Training (for Children’s Waiver enrollees) is customized training for the paid in-home support staff who provide care for a child enrolled in the Waiver.

Out-of-Home Non-Vocational Supports and Services (for HSW enrollees) is assistance to gain, retain or improve in self-help, socialization or adaptive skills.

Personal Emergency Response Devices (for HSW enrollees) help a person maintain independence and safety in their own home or in a community setting. These devices are used to call for help in an emergency.

Prevocational Services (for HSW enrollees) include supports, services, and training to prepare a person for paid employment or community volunteer work.

Private Duty Nursing (for HSW enrollees) is individualized nursing service provided in the home, as necessary to meet specialized health needs.

Specialty Services (for Children’s Waiver enrollees) are music, recreation, art or massage therapies that may be provided to help reduce or manage the symptoms of a child’s mental health condition or developmental disability. Specialty services might also include specialized child and family training, coaching, staff supervision or monitoring of program goals.

SUBSTANCE ABUSE SERVICES FOR MEDICAID BENEFICIARIES*

Access, Assessment, and Referral (AAR) determines the need for substance abuse services and will assist in getting to the right services and providers.

Outpatient Treatment includes therapy/counseling for the individual, and family and group therapy in an office setting.

Intensive/Enhanced Outpatient (IOP or EOP) is a service that provides more frequent and longer counseling sessions each week and may include day or evening programs.

Methadone and LAAM Treatment is provided to people who have heroin or other opiate dependence. The treatment consists of opiate substitution monitored by a doctor as well as nursing services and lab tests. This treatment is usually provided along with other substance use disorder outpatient treatment.

Sub-Acute Detoxification is medical care in a residential setting for people who are withdrawing from alcohol or other drugs.

Residential Treatment is intensive therapeutic services which include overnight stays in a staffed licensed facility.

*If you are covered by the Healthy Michigan Plan you may be entitled to other services not listed above. Please contact your local CMHSP for additional information.

If you receive Medicaid, you may be entitled to other medical services not listed above. Services necessary to maintain your physical health are provided or ordered by your primary

care doctor. If you receive Community Mental Health services, your local CMHSP will work with your primary care doctor to coordinate your physical and behavioral health services. If you do not have a primary care doctor, we will help you find one.

Note: **Home Help Program** is another service available to Medicaid beneficiaries who require in-home assistance with activities of daily living and household chores. In order to learn more about this service, you may call your local county Department of Health and Human Services office at the number listed below, or you can contact Customer Services at 800-897-3301.

Medicaid Health Plan Services

If you are enrolled in a Medicaid Health Plan, the following kinds of health care services are available to you when your medical condition requires them.

- Ambulance
- Chiropractic
- Doctor Visits
- Family Planning
- Health Check Ups
- Hearing Aids
- Hearing and Speech Therapy
- Home Health Care
- Immunizations (shots)
- Lab and X-ray
- Nursing Home Care
- Medical Supplies
- Medicine
- Mental Health (limit of 20 outpatient visits)
- Physical and Occupational Therapy
- Prenatal Care and Delivery
- Surgery
- Transportation to Medical Appointments
- Vision

If you already are enrolled in one of the health plans listed below you can contact the health plan directly for more information about the services listed above. If you are not enrolled in a health plan or do not know the name of your health plan, you can contact Customer Services for assistance.

SERVICES FOR INDIVIDUALS WHO DO NOT HAVE MEDICAID

Individuals who do not have Medicaid may be placed on waiting lists for services, if there are not enough General Fund dollars. Once authorized for services covered under general fund, individuals must apply for Medicaid in order to continue receiving Community Mental Health funded services. Individuals who do not have Medicaid may receive the following behavioral health services if determined medically necessary, if there are enough General Fund dollars:

- Development of an individual plan of service
- Planning, linking, coordinating, follow-up, and monitoring to assist an individual in gaining access to services
- Specialized training, treatment and support, including therapeutic clinical interactions, socialization and adaptive skill and coping skill training, health and rehabilitative services, and pre-vocational and vocational services
- Recipient Rights services
- Mental health advocacy
- Prevention

Individuals who do not have Medicaid may receive the following substance abuse services if determined medically necessary, and if the LRE has sufficient funding.

- Outpatient Treatment
- Detoxification
- Residential Services
- Pharmacological Supports (Methadone)
- Prevention
- Acupuncture may be used as an adjunct therapy with any of the above

COORDINATION OF CARE

To improve the quality of services, Lakeshore Regional Entity wants to coordinate your care with the medical provider who cares for your physical health. If you are also receiving substance abuse services, your behavioral health care should be coordinated with those services. Being able to coordinate with all providers involved in treating you improves your chances for recovery, relief of symptoms, and improved functioning. Therefore, you are encouraged to sign a Release of Information so that information can be shared. If you do not have a doctor and need one, contact Customer Services and staff will assist you in finding a medical provider.

RECIPIENT RIGHTS

Every person who receives public behavioral health services has certain rights. The Michigan Mental Health Code protects some rights. Some of your rights include:

- The right to be free from abuse and neglect.

- The right to confidentiality.
- The right to be treated with dignity and respect.
- The right to receive treatment suited to condition.

More information about your rights is contained in the booklet titled “Your Rights.” You will be given this booklet and have your rights explained to you when you first start services, and then once again every year. You can also ask for this booklet at any time.

You may file a Recipient Rights complaint *at any time* if you think staff violated your rights. You can make a rights complaint either orally or in writing.

If you receive substance abuse services, you have rights protected by the Public Health Code. These rights will also be explained to you when you start services and then once again every year. You can find more information about your rights while getting substance abuse services in the “Know Your Rights” pamphlet.

Freedom from Retaliation

If you receive public behavioral health or substance abuse services, you are free to exercise your rights, and to use the rights protection system without fear of retaliation, harassment or discrimination. In addition, under no circumstances will the public behavioral health system use seclusion or restraint as a means of coercion, discipline, convenience or retaliation.

You may contact your local Office of Recipient Rights at the number listed below to talk with a Recipient Rights Officer about any questions you may have about your rights or to get help to make a complaint. You can also contact Customer Services for help with making a complaint.

CMHSP	Phone Number

CMH of Ottawa County	(616) 393-5763
HealthWest, Muskegon’s Behavioral WellnessConnection	(231) 724-1107
Network180	(616) 336-3765
West Michigan CMH	(231) 845-6294

CONFIDENTIALITY AND FAMILY ACCESS TO INFORMATION

You have the right to have information about your behavioral health treatment kept private. You also have the right to look at your own clinical records and add a formal statement about them if there is something with which you do not agree. Generally, information about you can only be given to others with your permission. However, there are times when your information is shared in-order-to coordinate your treatment or when it is required by law.

Confidential information about you may be released when you, your guardian or your parent (if you are a minor) signs a release of information. Confidential information can be released without your consent if:

- You are going to harm yourself and/or another person. In this case, staff may have to tell the police and the person you threatened to harm.

- Staff learns of or suspects that child abuse or neglect is happening. In this case, a report must be made to Children’s Protective Services or local law enforcement.
- Staff learns of or suspects that a vulnerable adult is being abused or neglected. In this case, Adult Protective Services must be called.
- Your CMHSP needs to get benefits for you to get paid for the cost of treatment.
- You die and your spouse or other close relative needs the information to apply for and receive benefits.

Family members have the right to provide information about you to your provider. However, without a release of information signed by you, your provider may not give information about you to a family member. For minor children under the age of 18 years, parents/guardians are provided information about their child and must sign a release of information before information can be shared with others.

Under the Health Insurance Portability and Accountability Act (HIPAA), you will be provided with an official Notice of Privacy Practices. This notice will tell you all the ways that information about you can be used or disclosed. It will also include a listing of your rights provided under HIPAA and how you can file a complaint if you feel your right to privacy has been violated.

If you receive substance abuse services, you have rights related to confidentiality specific to substance abuse services.

If you feel your confidentiality rights have been violated, call your local Recipient Rights Office.

Accessing your Records

Your service provider keeps a record of the care you receive. You have the right to look at your own clinical records. You or your guardian (parent if you’re a minor) can ask to see or get a copy of all or part of your record. Your request must be in writing. There may be a charge for the cost of copying.

If you or your legal representative believes your record contains incorrect information, you or she/he may request that your record be amended or corrected. You may not remove what is already in the record, but you have the right to add a formal statement.

If you are denied access to your record, you, or someone on your behalf should contact your local Office of Recipient Rights.

GRIEVANCE AND APPEALS

Grievances

A **grievance** is an Enrollee’s expression of dissatisfaction about service issues, other than an Adverse Benefit Determination. Possible subjects for grievances include, but are not limited to, quality of care or services provided, aspects of interpersonal relationships between a service provider and the Enrollee, failure to respect the Enrollee’s rights regardless of whether remedial action is requested, or an Enrollee’s dispute regarding an extension of time proposed by the PIHP to make a service authorized decision. . You have the right to say that you are unhappy with your services or supports, or the staff who provide them, by filing a

grievance. You can file a grievance *any time* by visiting, writing to or calling Customer Services at 800-897-3301, or by contacting your local CMHSP directly. Once you file a grievance it will be resolved within 90 calendar days. If you are a Medicaid beneficiary and your grievance is not resolved within 90 days, you have the right to the Medicaid Fair Hearing process.

Appeals

An **appeal** is a request to review at the local level by a PIHP an Adverse Benefit Determination. You will be given notice when a decision is made that denies your request for services or reduces, suspends or terminates the services you already receive. You have the right to file an appeal when you do not agree with such a decision. There are time limits on when you can file an appeal once you receive a decision about your services. You may contact Customer Services at 800-897-3301 to request a local appeal.

If you have Medicaid and received an Adverse Benefit Determination involving the termination, suspension or reduction of a service that is currently authorized, you may request to have your services continue while your appeal is pending if you file an appeal within 10 calendar days and the original authorization period has not expired. If services are continued, we have the right to ask you to repay the cost of these services if the hearing or appeal upholds the original decision, or if you withdraw your appeal or hearing request, or if you or your representative does not attend the hearing.

You will be given detailed information about grievance and appeal processes when you first start services and then again annually. You may ask for this information at any time by contacting Customer Services at 800-897-3301.

There are two levels of appeals – local appeals and state appeals.

Local Appeals

You must file a local appeal within 60 calendar days of the date on the notice of Adverse Benefit Determination. You may request an appeal orally or in writing, unless the Enrollee requests an expedited resolution, an oral request for Appeal must be followed by a written, signed request for Appeal. If you believe your life, health or well-being will be in danger by waiting the standard timeframe for the appeal to be resolved, you can ask for an expedited appeal. If the request for an expedited appeal is granted, it will be completed within 72 hours. If the request for an expedited appeal is denied, we will try to give you prompt oral notice and will follow up with written notice within 2 calendar days.

During the local appeal process, you have the right to request to provide additional information or have someone speak for you regarding the appeal. You, or your legal representative, also have the right to review your appeal file before and during the local appeal process. You may ask for assistance from Customer Services to file an appeal.

Your appeal will be resolved as quickly as possible, but no later than 30 calendar days from the day the appeal is received. You will receive written notice of the results of the decision on the appeal.

State Appeals

There are two types of state level appeals – State Fair Hearing and Alternative Dispute Resolution Process.

1. State Fair Hearing

If you have Medicaid, you have the right to an impartial review by a state level administrative law judge if, 1) After receiving notice that the PIHP is, after Appeal, upholding an adverse Benefit Determination, or 2) When the PIHP fails to adhere to the notice and timing requirements for resolution of Grievances and Appeals. You have 120 calendar days from the date of the applicable notice of resolution to file a request for a State Fair Hearing. If you believe your life, health or well-being will be in danger by waiting for the hearing to take place, you can ask for an expedited hearing. The Michigan Administrative Hearing System will decide whether to grant your request for an expedited hearing.

Fair hearing requests must be in writing and signed by you or an authorized person. During the hearing, you can represent yourself or have another person represent you. This person can be anyone you choose. This person may also request a hearing for you. You must give this person written permission to represent you. You may provide a letter or a copy of a court order naming this person as your guardian or conservator.

To request a hearing, you may complete the Request for Hearing form, or you may submit your hearing request in writing on any paper to and mail or fax it to:

Michigan Administrative Hearing System
Department of Health and Human Services
PO Box 30763
Lansing, MI 48909-9951

2. Alternative Dispute Resolution Process

If you do not have Medicaid, you can ask for an Alternative Dispute Resolution through the Michigan Department of Health and Human Services. This can only be done **after** you have completed a Local Appeal and you do not agree with the written results of that decision. You may submit your request in writing and mail it to:

MDHHS - Program Development, Consultation, and Contracts
Division Behavioral Health and Developmental Disabilities
Administration ATTN: Request for DHHS Level Dispute Resolution
Lewis Cass Building - 6th Floor
320 South Walnut St
Lansing, MI 48913

Second Opinions

If you were denied initial access to all behavioral health services, or if you were denied psychiatric inpatient hospitalization after specifically requesting this service, the Michigan Mental Health Code allows you the right to ask for a Second Opinion.

- If initial access to all behavioral health services was denied, a Second Opinion will be completed within 5 business days of making the request.

- If a request for psychiatric inpatient hospitalization was denied, a Second Opinion will be completed within 3 business days of making the request.

You will be given detailed information about grievance and appeal processes when you first start services and then again annually. You may ask for this information at any time by contacting Customer Services at 800-897-3301.

PERSON-CENTERED PLANNING

The process used to design your individual plan of behavioral health supports, service or treatment is called “Person-Centered Planning (PCP).” Person-centered planning is your right protected by the Michigan Mental Health Code.

The process begins when you determine whom, beside yourself, you would like at the person-centered planning meetings, such as family members or friends, and what staff you would like to attend. You will also decide when and where the person-centered planning meetings will be held. Finally, you will decide what assistance you might need to help you participate in and understand the meetings.

During person-centered planning, you will be asked what are your hopes and dreams, and will be helped to develop goals or outcomes you want to achieve. The people attending this meeting will help you decide what support, services or treatment you need, who you would like to provide this service, how often you need the service, and where it will be provided. You have the right, under federal and state laws, to a choice of providers.

There are no set limits on the amount, scope or duration of services that are available to you as services are authorized suitable to condition and medical necessity. We do not give incentives to any provider to limit your services. We work with you, during your assessment and as part of your person-centered planning process, to determine what services are appropriate to meet your needs.

After you begin receiving services, you will be asked from time to time how you feel about the supports, services or treatment you are receiving and whether changes need to be made. You have the right to ask at any time for a new person-centered planning meeting if you want to talk about changing your plan of service.

You have the right to “independent facilitation” of the person-centered planning process. This means that you may request someone other than the staff conduct your planning meetings. You have the right to choose from available independent facilitators.

Children under the age of 18 with developmental disabilities or serious emotional disturbance also have the right to person-centered planning. However, person-centered planning must recognize the importance of the family and the fact that supports and services impact the entire family. The parent(s) or guardian(s) of the children will be involved in pre-planning and person-centered planning using “family-centered practice” in the delivery of supports, services, and treatment to their children.

Topics Covered During Person-Centered Planning

During person-centered planning, you will be told about psychiatric advance directives, a crisis plan, and self-determination (see the descriptions below). You have the right to choose to develop any, all or none of these.

- ***Psychiatric Advance Directive***

Adults have the right under Michigan law to a “**psychiatric advance directive.**” A psychiatric advance directive is a tool for making decisions before a crisis in which you may become unable to make a decision about the kind of treatment you want and the kind of treatment you do not want. This lets other people, including family, friends, and service providers, know what you want when you cannot speak for yourself. If you choose to create a psychiatric advance directive, you should give copies to all providers caring for you, people you have named as a medical or mental health patient advocate, and family members or trusted friends who could help your doctors and behavioral health providers make choices for you if you cannot make those choices

For more information about advance directives, please refer to the section entitled *A Guide to Advance Directives and Guardianships in Michigan* located in the back of this handbook. If you do not believe you have received appropriate information regarding psychiatric advance directives, please contact Customer Services to file a grievance.

- ***Crisis Plan***

You also have the right to develop a “**crisis plan.**” A crisis plan is intended to give direct care if you begin to have problems in managing your life or if you become unable to make decisions and care for yourself. The crisis plan would give information and direction to others about what you would like done in the time of crisis. Examples are listing friends or relatives to be called, preferred medications or care of children, pets or bills.

- ***Self-Determination***

“**Self-Determination**” is an option for payment of medically necessary services you might request if you are an adult beneficiary receiving behavioral health services in Michigan. It is a process that would help you to design and exercise control over your own life by directing a fixed amount of dollars that will be spent on your authorized supports and services, often referred to as an “individual budget.” You would also be supported in your management of providers, if you choose such control.

RECOVERY AND RESILIENCY

“Recovery is a journey of healing and transformation enabling a person with a mental health/substance abuse problem to live a meaningful life in a community of his or her choice while striving to achieve his or her potential.”

Recovery is an individual journey that follows different paths and leads to different locations. Recovery is a process that we enter into and is a lifelong attitude. Recovery is unique to each individual and can truly only be defined by the individual themselves. What might be recovery for one person may be only part of the process for another. Recovery may also be defined as wellness. Behavioral health supports and services help people with a mental

illness/substance use disorder in their recovery journeys. The person-centered planning process is used to identify the supports needed for individual recovery.

In recovery there may be relapses. A relapse is not a failure, rather a challenge. If a relapse is prepared for, and the tools and skills that have been learned throughout the recovery journey are used, a person can overcome and come out a stronger individual. It takes time, and that is why **Recovery** is a process that will lead to a future that holds days of pleasure and the energy to persevere through the trials of life.

Resiliency and development are the guiding principles for children with serious emotional disturbance. Resiliency is the ability to “bounce back” and is a characteristic important to nurture in children with serious emotional disturbance and their families. It refers to the individual’s ability to become successful despite challenges they may face throughout their life.

GLOSSARY

Access: The entry point to the Pre-Paid Inpatient Health Plan (PIHP), sometimes called an “access center,” where Medicaid beneficiaries call or go to request behavioral health services.

Adverse Benefit Determination: A decision that adversely impacts a Medicaid beneficiary’s claim for services.

Amount, Duration, and Scope: Terms to describe how much, how long, and in what ways the Medicaid services listed in a person’s individual plan of service will be provided.

Appeal: A review of an Adverse Benefit Determination.

Behavioral Health: Includes not only ways of promoting well-being by preventing or intervening in mental illness such as depression or anxiety, but also has as an aim preventing or intervening in substance abuse or other addictions. For the purposes of this handbook, behavioral health will include intellectual/developmental disabilities, mental illness in both adults and children and substance use disorders.

Beneficiary: An individual who is eligible for and enrolled in the Michigan Medicaid program.

CMHSP: An acronym for Community Mental Health Services Program. There are 46 CMHSPs in Michigan that provide services in their local areas to people with mental illness and developmental disabilities. May also be referred to as CMH.

Consumer: Broad, inclusive reference to an individual requesting or receiving mental health services delivered and/or managed by the PIHP, including Medicaid beneficiaries, and all other recipients of PIHP/CMHSP services.

Deductible (or Spend-Down): A term used when individuals qualify for Medicaid coverage even though their countable incomes are higher than the usual Medicaid income standard. Under this process, the medical expenses an individual incurs during a month are

subtracted from the individual's income during that month. Once the individual's income has been reduced to a state-specified level, the individual qualifies for Medicaid benefits for the remainder of the month. Medicaid applications and deductible determinations are managed by MDHHS – independent of the PIHP service system.

Developmental Disability: Is defined by the Mental Health code as either of the following: (a) If applied to a person older than five years, a severe chronic condition that is attributable to a mental or physical impairment or both, and is manifested before the age of 22 years; is likely to continue indefinitely; and results in substantial functional limitations in three or more areas of the following major life activities: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and reflects the need for a combination and sequence of special, interdisciplinary or generic care, treatment or other services that are of lifelong or extended duration; (b) If applied to a minor from birth to age five, a substantial developmental delay or a specific congenital or acquired condition with a high probability of resulting in an developmental disability.

Flint 115 Demonstration Waiver: The demonstration waiver expands coverage to children up to age 21 years and to pregnant women with incomes up to and including 400% of the federal poverty level (FPL) who were served by the Flint water system from April 2014 through a state-specified date. This demonstration is approved in accordance with section 1115 (a) of the Social Security Act, and is effective as of March 3, 2016 the date of the signed approval through February 28, 2021. Medicaid-eligible children and pregnant women who were served by the Flint water system during the specified period will be eligible for all services covered under the state plan. All such persons will have access to Targeted Case Management services under a fee for service contract between MDHHS and Genesee Health System (GHS). The fee for service contract shall provide the targeted case management services in accordance with the requirements outlined in Special Terms and Conditions for the Flint section 1115 Demonstration, the Michigan Medicaid State Plan and Medicaid Policy.

Health Insurance Portability and Accountability Act of 1996 (HIPAA): This legislation is aimed, in part, at protecting the privacy and confidentiality of patient information. "Patient" means any recipient of public or private health care, including behavioral health care services.

Healthy Michigan Plan: An 1115 Demonstration project that provides health care benefits to individuals who are: aged 19-64 years; have income at or below 133% of the federal poverty level under the Modified Adjusted Gross Income methodology; do not qualify or are not enrolled in Medicare or Medicaid; are not pregnant at the time of application; and are residents of the State of Michigan. Individuals meeting Healthy Michigan Plan eligibility requirements may also be eligible for behavioral health and substance abuse services. The Michigan Medicaid Provider Manual contains complete definitions of the available services as well as eligibility criteria and provider qualifications. The Manual may be accessed at www.mdch.state.mi.us/dch-medicaid/manuals/MedicaidProviderManual.pdf. Customer Services staff can help you access the manual and/or information from it.

MDHHS: An acronym for Michigan Department of Health and Human Services. This state department, located in Lansing, oversees public-funded services provided in local communities and state facilities to people with mental illness, developmental disabilities, and substance use disorders.

Medically Necessary: A term used to describe one of the criteria that must be met in order for a beneficiary to receive Medicaid services. It means that the specific service is expected to help the beneficiary with his or her mental health, developmental disability or substance use (or any other medical) condition. Some services assess needs and some services help maintain or improve functioning. PIHPs are unable to authorize (pay for) or provide services that are not determined as medically necessary for you.

Michigan Mental Health Code: The state law that governs public mental health services provided to adults and children with mental illness, serious emotional disturbance, and developmental disabilities by local CMHSPs and in state facilities.

MiChild: A Michigan health care program for low-income children not eligible for the Medicaid program. This is a limited benefit. Contact Customer Services for more information.

PIHP: An acronym for Pre-Paid Inpatient Health Plan. There are 10 PIHPs in Michigan that manage the Medicaid mental health, developmental disabilities, and substance abuse services in their geographic areas. Under contract with the state each one is organized as a Regional Entity or a CMHSP according to the Mental Health Code.

Recovery: A journey of healing and change allowing a person to live a meaningful life in a community of their choice, while working toward their full potential.

Resiliency: The ability to “bounce back.” This is a characteristic important to nurture in children with serious emotional disturbance and their families. It refers to the individual’s ability to become successful despite challenges they may face throughout their life.

SED: An acronym for Serious Emotional Disturbance and as defined by the Michigan Mental Health Code means a diagnosable mental, behavioral or emotional disorder affecting a child that exists or has existed during the past year for a period of time sufficient to meet diagnostic criteria specified in the most recent Diagnostic and Statistical Manual of Mental Disorders; and has resulted in functional impairment that substantially interferes with or limits the child’s role or functioning in family, school or community activities.

Serious Mental Illness: Is defined by the Michigan Mental Health Code to mean a diagnosable mental, behavioral or emotional disorder affecting an adult that exists or has existed within the past year for a period of time sufficient to meet diagnostic criteria specified in the most recent Diagnostic and Statistical Manual of Mental Disorders; and that has resulted in function impairment that substantially interferes with or limits one or more major life activities.

Specialty Supports and Services: A term that means Medicaid-funded mental health, developmental disabilities, and substance abuse supports and services that are managed by the Pre-Paid Inpatient Health Plans.

State Fair Hearing: A state level review of beneficiaries’ disagreements with CMHSP, or PIHP denial, reduction, suspension or termination of Medicaid services. State administrative law judges who are independent of the MDHHS perform the reviews.

Substance Use Disorder (or Substance Abuse): Is defined in the Michigan Public Health Code to mean the taking of alcohol or other drugs at dosages that place an individual's social, economic, psychological, and physical welfare in potential hazard or to the extent that an individual loses the power of self-control as a result of the use of alcohol or drugs, or while habitually under the influence of alcohol or drugs, endangers public health, morals, safety or welfare, or a combination thereof.

NON-DISCRIMINATION AND ACCESSIBILITY

In providing behavioral healthcare services, Lakeshore Regional Entity (LRE) complies with all applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. LRE does not exclude or treat individuals differently because of race, color, national origin, age, disability or sex.

LRE provides free aids and services to people with disabilities to communicate effectively with us, such as:

- Qualified sign language interpreters
- Written information in other formats (large print, audio, accessible electronic formats, Braille)

LRE provides free language services to people whose primary language is not English or have limited English skills, such as:

- Qualified interpreters
- Information written in other languages

If you need these services, contact Lisa Williams, LRE Customer Services Specialist, at (800) 897-3301.

If you believe that LRE has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex you can file a grievance with:

Lisa Williams
Lakeshore Regional Entity Customer Services Department
5000 Hakes Drive Suite 500
Norton Shores, MI 49441
Phone No. (800) 897-3301
Fax No. 231-769-2075
Email: Customerservice@lsre.org.

If you are a person who is deaf or hard of hearing, you may contact LRE at 231-740-0098 or MI Relay Service at 711 to request their assistance in connecting you to Lakeshore Regional Entity. You can file a grievance in person, by phone, mail, fax or email. If you need help in filing a grievance, the LRE Customer Services Specialist is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights. Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>. You may also file a grievance electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
Room 509F, HHH Building
Washington, D.C. 20201

A Guide to Guardianships and Advance Directives in Michigan

This booklet provides an overview of the different types of guardianships and advance directives that are available in Michigan.

This is intended only as a summary of guardianship and advance directives as they exist in Michigan. This is not intended to provide legal advice for your specific situation.

GUARDIANSHIPS

The first few pages of this booklet will look at the different words and phrases which are used to describe guardians. Then, with a common understanding of the role of a guardian, we will look closer at Advance Directives and the role of a Patient Advocate.

Guardianships can be known by many words and phrases:

- Advance Directive
- Conservator
- Court as Guardian
- Durable Power of Attorney (DPA)
- Guardian Ad Litem (GAL)
- Guardian as Fiduciary
- Health Care Proxy
- Limited Guardianship
- Loco Parentis
- Michigan DNR
- Partial Guardianship
- Patient Advocate
- Plenary Guardianship
- Standby Guardian
- Temporary Guardian
- Testamentary Guardian

What is a Guardianship?

A guardianship is a relationship created by the Court. A guardian can be either a person or an organization. The guardian is given the power to make decisions about the care of another person. The court appoints a guardian when the person is legally unable to make some of their own decisions. It is important that you read your Court documents to understand what type of power your guardian has.

What powers can a Court grant your guardian?

A court can grant your guardian the power to:

- make health care decisions for you,
- determine where you live,
- arrange services for you,
- receive money belonging to you, and
- use your money for your care.

What is a Conservator?

A conservator is a type of guardian that is responsible for your financial affairs. A guardian can also have the powers of a conservator.

What is a Plenary Guardian?

A plenary guardian is someone who has the legal rights and powers of a full guardian over you, or your property, or both you and your property.

What is a Partial Guardian?

A partial guardian is someone who has *less* than all the legal rights and powers of a full guardian. The partial guardian's rights, powers and duties are clearly written in a court order. A partial guardian can also be known as a **Limited Guardian**.

A partial guardian is only granted those powers and only for the amount of time necessary to provide for your specific needs.

A court order creating a partial guardianship will clearly explain the powers and duties of the partial guardian. This will permit the legally incapacitated individual to care for himself and his property as much as their ability will allow.

A legally incapacitated individual who has a partial guardian keeps all their legal and civil rights except those that have been specifically granted to the partial guardian by the court.

When a court appoints a partial guardian it means that the court has decided you cannot make certain decisions. But it is important to understand the court's order. You keep the power to make decisions unless the court gives that power to your guardian.

What is a Guardian ad Litem?

A guardian ad litem is a person appointed by the Court to examine a specific question and report to the Court. A guardian ad litem does not have authority to make decisions for the individual.

What is a Standby Guardian?

A standby guardian becomes a guardian when the original guardian dies or is not able to work as a guardian any more. The powers and duties of the standby guardian are the same as those of the original guardian.

What is a Testamentary Guardian?

A testamentary guardian is appointed by a parent or guardian of their minor or adult child with a developmental disability. This appointment would be made through the parents' or guardian's will.

What is a Temporary Guardian?

A temporary guardian is a guardian whose authority is for a short time only. The temporary guardian is usually appointed in an emergency.

What is Person in Loco Parentis (instead of the parent)?

A person in loco parentis is a person, not the parent or guardian of a child or minor, who has legal custody of the child or minor and is providing support and care for the child or minor.

What does 'Court as Guardian' mean?

The Court may be a temporary guardian under emergency circumstances if necessary for the welfare or protection of an individual if no other guardian has been appointed. The Court may appoint a temporary guardian if it prefers to.

Who may file a Petition for Guardianship and what is contained within it?

A petition for guardianship may be filed by an interested person or entity, or by the individual. The petition needs to describe the relationship and interest of the petitioner, as well as the name, date of birth and place of residence of the individual. The petition must describe the facts and reasons for the need for guardianship. It should also provide the names and addresses of the individual's current guardian and the individual's heirs.

How long will a Guardianship last?

The court decides how long a guardianship will last. A partial guardian is not appointed for

longer than five years. When that five year term expires, a new petition for guardianship may be filed.

What does it mean if the Guardian has fiduciary duties?

When the court appoints a plenary guardian of the estate or a partial guardian with powers or duties for real or personal property, that guardian is considered a fiduciary. A fiduciary has rights and powers which would normally belong to you. The fiduciary must make decisions that benefit you. A fiduciary must not let anything interfere with making good decisions for you.

Can a Guardian place an individual into a hospital?

A guardian does not have the power to place you into a hospital unless the court has specifically given the guardian that power.

Before the court authorizes placing someone into a hospital, the court will examine the appropriateness of the placement. The court will talk with your CMHSP to make sure the placement offers appropriate treatment and residential programs to meet your needs.

Who has the Power to Consent to Surgery for a Consumer?

A consumer of mental health services cannot have surgery performed upon him or her unless consent is obtained from one of the following:

CONSUMER: if they are over 18 and do not have a guardian for medical purposes,

GUARDIAN: if the guardian is legally empowered to execute consent to surgery,

PARENT: who has legal and physical custody of the consumer, if the consumer is less than 18 years of age.

PATIENT ADVOCATE: under a Durable Power of Attorney for health care.

Who has the Power to Consent to Electroconvulsive Therapy (ECT)?

A consumer shall not be given ECT or a procedure intended to produce convulsions or coma unless consent is obtained from one of the following:

CONSUMER: if they are over age 18 and do not have a guardian for medical purposes,

GUARDIAN: if the guardian is legally empowered to execute consent to such a procedure,

PARENT: who has legal and physical custody of the consumer, if the consumer is less than 18 years of age,

PATIENT ADVOCATE: under a Durable Power of Attorney for health care.

Can the Guardian authorize Medical Treatment?

Yes. A guardian can authorize certain medical treatment for you. For example, a guardian can authorize routine or emergency medical treatment.

Also, your guardian can authorize surgery or extraordinary procedures when the procedure is ordered by the court. Your guardian must consult with your physician. Your guardian must act in good faith and not be negligent.

What is an Extraordinary Procedure?

An extraordinary procedure can include things like sterilization, including vasectomy; abortion; organ transplants from the ward to another person; and experimental treatment.

Who can make decisions about the donation of body parts?

Sometimes people want to donate their body or organs when they die. A competent adult may make a gift of all or a physical part of his or her body effective upon the individual's death.

Other individuals who may make such a decision are:

- Guardian
- Parent
- Patient Advocate - an adult son or daughter
- Spouse
- Adult Child - an adult brother or sister
- Adult brother or sister

ADVANCE

What is an Advance Directive?

As individuals we all value the right to make our own choices. We all want to choose our own health care treatment. But when we become sick, we may not be able to make some choices. An advance directive may help us with those choices. If we create an advance directive when we are healthy, it would help other people understand our choices when we are not healthy. An advance directive helps people understand the choice you want to make.

What are the advantages to having an advance directive?

Each of us has our own values, wishes, and goals. An advance directive provides you with assurance that your personal wishes or desires concerning medical and mental health treatment will be honored when you are unable to express them. Having an advance directive may also prevent the need for a guardianship imposed through Probate Court.

Do I have to have an advance directive?

No. The decision to have an advance directive is purely voluntary. No family member, hospital or insurance company can force you to have an advance directive. No one can tell you what your advance directive should say if you decide to write one. You cannot be denied health care services because of your choice about an advance directive.

What if I choose not to have an advance directive?

An advance directive is voluntary. Someday you may not be able to make your own choices, but choices may still have to be made for you. Health care providers may make choices for you that do not like. Perhaps the Court will need to appoint a guardian to make choices for you. However, a hospital, nursing home or hospice provider cannot deny you services because you do not have an advance directive.

When should I review my advance directive?

Medical technology is always changing. The choices you make may also change. You should review your advance directive about once a year. When you review your advance directive, you may choose to keep it the same. You may choose to write a new advance directive. You may choose not to have an advance directive anymore. If you keep your original advance directive, you should put your initials and date at the bottom of it.

What are the responsibilities of health care providers?

Health care providers must tell you about your rights.

- You have the right to consent to health care treatment.
- You have the right to refuse health care treatment.
- You have the right to create an advance directive.
- A health care provider cannot force you to create an advance directive.
- If you create an advance directive, the health care provider needs to put a copy in your medical record.

Are there different types of advance directives?

Yes. There are three types of advance directives and each type accomplishes something different. It is important to understand the difference between these three types.

- 1) A **Durable Power of Attorney for Health Care** allows you to appoint someone to make decisions for you if you have a health care crisis. That person can be called an **agent**, a **patient advocate** or a **proxy**. These three names mean the same thing. Michigan courts will honor a durable power of attorney for health care.
- 2) A **Living Will** tells health care providers and the courts about your health care choices if you are not able to tell them yourself. Living wills usually deal with specific situations. Living wills may not be very helpful in all situations. Michigan Courts may look at a living will. But, the courts do not have to follow what a living will says.
- 3) A **Do-Not-Resuscitate Order** says that you do not want anyone to attempt to help you if your breathing and heartbeat stops. This can also be called a **DNR**.

DURABLE POWER OF ATTORNEY FOR HEALTH CARE (DPA)

What is a Power of Attorney?

A Power of Attorney is a legal document. You would use it to give someone the power to make legal decisions for you. They can make your financial decisions. They can make health care decisions for you. Or, they can make both kinds of decisions for you.

What is a Durable Power of Attorney for Health Care?

A durable power of attorney for health care is a legal document. You use it to give someone the power to make medical and/or mental health treatment and other personal care decisions for you, some of which include living wills, DNR orders or decisions about tissue or organ donation. It is also referred to as a **Medical Care Advance Directive**.

A durable power of attorney for health care may also be called a **health care proxy**. The person you appoint to make decisions for you is your **patient advocate** or **agent**. Your patient advocate makes health care decisions for you if you are not able to make them yourself.

What is a Durable Power of Attorney for Mental Health Care?

It is a tool used to make decisions before a crisis happens which may cause you to become unable to make a decision about the kind of mental health treatment you want or do not want. This lets other people, including family, friends, and service providers know what you want when you cannot speak for yourself. It is also referred to as a **Psychiatric Advance Directive**.

Is a durable power of attorney for health care legally binding in Michigan?

Yes. Michigan law gives you the right to appoint a patient advocate. Your patient advocate helps make health care decisions for you when you are not able to make them yourself.

Who may create a durable power of attorney for health care?

To make a durable power of attorney, you must be an adult. You must also be legally competent.

What is my decision maker called?

That person is known as your **Patient Advocate**. He could also be called your **agent** or your **proxy**. **These names mean the same thing.**

Who can I appoint as my patient advocate?

Your patient advocate can be any adult. Your patient advocate could be your spouse. Or, your patient advocate could be an adult child or friend.

When can the patient advocate act in my behalf?

Your patient advocate makes health care choices for you only when you are unable to. You make your own choices as long as you are able to.

What powers can I give my patient advocate?

You can give your patient advocate complete power to make decisions for you. You can give your patient advocate power to accept or refuse medical treatment for you. This can include arrangements for home health care or day care. It can also include decisions about nursing home care. You can give your patient advocate as much power as you want.

Will my patient advocate be able to consent to a forced administration of medication?

Sometimes a doctor may want you to take medication against your will. Sometimes a doctor may want to have you go into a hospital against your will. Your patient advocate cannot give permission for these things unless you have given him that power.

Will my patient advocate have power to handle my financial affairs?

Your patient advocate can handle your money and use your money to pay bills. If you want your patient advocate to handle your money, you should speak with a lawyer.

How do I make a valid durable power of attorney for health care?

A valid durable power of attorney for health care must have three things.

- The paper must be in **writing**.
- You need to **sign the paper**.
- You need to have **two witnesses**.*

* The witnesses cannot be related to you, your patient advocate cannot be a witness, and the witnesses cannot be employed by your health care provider.

Does the Durable Power of Attorney form have to look a certain way?

No. There are many organizations with free forms you can use. Or, you could create your own form. Make sure you type or print clearly (see websites in the back of this booklet).

Can I write my health choices out on my Durable Power of Attorney form?

Yes. For example, you might describe the type of care you want when you are not able to make decisions. You might say that you do not want to be placed in a nursing home. You may say that you prefer a specific placement if it becomes necessary. Your patient advocate has a duty to try to follow your wishes.

Is it important to express my wishes in the durable power of attorney for health care document?

Yes. Your wishes cannot be followed if someone does not know about them. It is harder for your advocate to do their job if they don't know what your wishes are.

What if I do not express any specific wishes?

If you do not tell your advocate what you want, he has to use his best judgment. A probate court may have to help decide what decisions are made for you.

Once I sign a durable power of attorney for health care, may I change my mind?

Yes, absolutely.

- You may want to choose a different patient advocate.
- You may change your mind about some choices in your document.
- You can sign a new document as long as you are of sound mind.
- If you create a new document, you should destroy the old one.
- You can cancel your durable power of attorney for health care any time you want and in any way you are able to.

What if there is a dispute about how my durable power of attorney for health care should be carried out?

If someone disagrees with the choices your patient advocate makes, the probate court may get involved. If the court believes your patient advocate is not doing their job properly it can remove the patient advocate.

LIVING WILL

What is a Living Will?

A living will is used to tell care-givers and family members **what kind of health care you want**. Living wills are used when a person is not able to communicate their choices about their health care.

Is a living will legally binding in Michigan?

No. Living wills are not legally binding in Michigan. You are allowed to have a living will. However, the courts do not have to obey the directions of a living will.

What is the main difference between a durable power of attorney for health care and a living will?

A living will is like a durable power of attorney, **but living wills do not create a patient advocate**. Living wills only talk about **what your decisions for health care are**.

A living will only works during an end of life illness or during permanent unconsciousness. A

durable power of attorney for health care can work even if you are only temporarily unable to make your own health care decisions.

Can my durable power of attorney for health care be similar to a living will?

Yes. Your durable power of attorney can be very similar to a living will. You can guide the choices your patient advocate will make for you. It is a good idea to give your patient advocate written instructions.

DO-NOT-RESUSCITATE ORDER (DNR)

What is a Do-Not-Resuscitate Order (DNR)?

A DNR is a special kind of advance directive. Some people do not want any special care made to prolong their life. A DNR tells care givers not to give you extra care if your heart stops or if your breathing stops.

Who may complete a DNR?

You may complete a DNR if you are **older than 18 and competent** (in other words, the Court has not declared you incompetent). You should also discuss this with your doctor.

Where do I get a DNR form?

The forms are available from most hospices.

What happens to the DNR form after I sign it?

You should keep the DNR form where you can find it. It should become part of your medical record. You should tell your family that you signed a DNR. Tell them where to find it. You may also choose to wear a DNR bracelet.

Can I be forced to sign a DNR?

No, absolutely not.

- No one can force you to sign a DNR statement.
- No one can refuse to provide treatment because you signed a DNR statement.
- No one can refuse to provide treatment because you would not sign a DNR statement.

Can I change my mind after I sign a DNR form?

Yes. Like any type of advance directive, you can change your mind. You may cancel your DNR at any time and in any way you can.

Can my insurance coverage be changed if I sign a DNR?

No. Your insurance will not change because you create a DNR. Your insurance will not change because you choose not to create a DNR.

Have DNRs recently changed?

Yes. In the past you could only have a DNR if you were in the hospital. Now you can have a DNR outside of the hospital. You may choose to wear a DNR bracelet. The bracelet lets people know what your choices are.

Can a guardian of an adult ward sign an advance directive under the Michigan Do-Not-Resuscitate (DNR) Procedure Act?

Outside of a hospital (i.e., nursing home, home for the aged, adult foster care facility, assisted living, hospice residence, or the individual's private residence) a guardian may consent to a DNR order for the individual they are legally responsible for.

Three prerequisites must be in place before a guardian may sign a DNR order for an individual located outside a hospital:

- 1) The Court must have granted the guardian the baseline authority to consent to a DNR order.
- 2) The guardian must visit the individual within 14 days before signing a DNR order, and must attempt to discuss the proposed order with the individual if meaningful communication is possible.
- 3) The guardian must personally discuss the medical indications for the DNR order with the individual's attending physician.

The guardian is to use the "best interest" standard to decide whether to sign a DNR order, as informed by the medical opinion of the attending physician and what the guardian can glean about the individual's wishes.

The guardian must give a copy of the DNR order to the attending physician and to the administrator of any facility where the individual resides. If the individual lives in a private residence, the guardian must ensure a copy of the DNR order is available in the home.

The DNR order is effective for one year, at which time the guardian must reconsider it after again visiting the individual and talking with the individual's attending physician.

The guardian may revoke the DNR order at any time.

Anyone who questions whether the DNR order was properly executed may petition the court for a judicial assessment of its validity.

Where should a DNR be kept?

- Your patient advocate should have a copy of the document.
- Your doctor should have a copy.
- You should keep a copy for your personal records.
- Let your care-givers know who you have chosen as your patient advocate.
- Also let your family members know who you have chosen as your patient advocate.
- A copy of your DNR should be kept in your medical record.

Is it important to be specific when I write my end of life instructions?

It is very important to be as specific as possible when listing what treatments you do not want. If you are not very clear, there is a danger that a vague description will be misunderstood and you may be denied treatment that you do want.

You should review your choices with your patient advocate to make sure your choices are understood.
